VOLUME 16	NUMBER 3	July 2017
CODEN: IJBNA 16(3) (2017) 269-512		ISSN: 0972-5849 (print) 0975-0967 (online)

CONTENTS

Risk effects of XRCC1 Arg399Gln and XPD Lys751Gln gene polymorphisms in <i>de novo</i> acute myeloid leukemia – A study from India Santhi S, Sangeetha Vijay, Sureshkumar R, Sreeja L, Preethi Sara George, Geetha N & Hariharan S	275
Cell surface display of rabbit MCP1 on human embryonic kidney 293T cell line Inaz Rahimmanesh, Hossein Khanahmad, Maryam Boshtam, Shirin Kouhpayeh & Zahra Hejazi	284
Expression of Omp16 and L7/L12 <i>Brucella abortus</i> protective antigens as secretory fusion protein in mammalian cells Bikash R Prusty, Rizwana Tabassum, Pallab Chaudhuri, Mohini Saini, V K Chaturvedi, BP Mishra & Parveen K Gupta	289
3D polymerase gene of foot and mouth disease virus is a potential target for siRNA mediated inhibition of viral replication Arun Prabhakaran V, Lijo John, Vijay Nagaraj, Umapathi Vijayapillai, Golla Ramalinga Reddy & Dechamma Hosur Joyappa	296
Ontogenic expression of adaptive immune genes in Rohu, <i>Labeo rohita</i> (Hamilton) K Saravanan, K V Rajendran, P Gireesh-Babu, C S Purusothaman & M Makesh	304
DNA barcoding of selected Perciformes (Infra Class: Teleostei) fishes from Indian coast N Sadurudeen, A Pavan-Kumar, P Gireesh-Babu, A K Jaiswar, A Chaudhari, Gopal Krishna & W S Lakra	315
SSR markers based genetic diversity of spiraling whitefly, <i>Aleurodicus dispersus</i> Russell populations in Tamil Nadu, India T Boopathi, S Mohankumar, P Karuppuchamy, S B Singh, M Ravi, B Preetha, R Aravintharaj & T Manju	322
Genetic polymorphism at exon-2 MHC B-L β II family gene by PCR-SSP in Kadaknath chicken Mohan Singh Thakur, Shivnandan Singh Parmar & Amit Kumar	329
Zinc finger transcription factor induces the drought, salt and cold stress tolerance in transgenic cotton Fozia Iqbal, Sajjad Sadique, Fatima Batool, Muhammad Bilal Sarwar, Bushra Rashid, Muhammad Naveed Shahid, Ahmad Ali Shahid & Tayyab Husnain	333
ISSR analysis reveals low genetic diversity and high genetic differentiation in <i>Kaempferia galanga</i> L. in South India populations P E Rajasekharan, V K Abdul Kareem, B S Ravish & S Mini	341
Molecular markers in assessing genetic variation of Indian citron (<i>Citrus medica</i> L) cultivars collected from different parts of India Ajit Uchoi, S K Malik, Ravish Choudhary, Susheel Kumar, Digvender Pal, M R Rohini & Rekha Chaudhury	346
Genetic diversity in <i>Oroxylum indicum</i> (L.) Vent, a threatened medicinal plants from India by ISSR analysis P E Rajasekharan, V K Abdul Kareem, B S Ravish & S Mini	350
<i>In vitro</i> propagation of <i>Nyctanthes arbor-tristis</i> L. H David Raja & D I Arockiasamy	366

Novel microorganisms for the treatment of Ni and V as spent catalysts Arenas-Isaac G, Gómez-Ramírez M, Montero-Álvarez L A, Tobón-Avilés A, Fierros-Romero G & Rojas-Avelizapa N G	370
Biophysical remediation of vanadium by <i>Shewanella</i> sp. E1 Eman A H Mohamed	380
Production of protease from biodiesel waste derived semipurified glycerol Sumitha V, Linekha R & Sivanandham M	387
Isolation and partial characterization of cellulase free alkalo-thermophilic xylanase produced by <i>Bacillus flexus</i> Sudipta Sankar Bora, Saurav Das, Jyoti Prasad Lahan & Madhumita Barooah	396
Stability studies of cuticle degrading and mycolytic enzymes of <i>Myrothecium verrucaria</i> for control of insect and phytopathogens S B Chavan, R P Vidhate, G S Kallure, N L Dandawate, J M Khire & M V Deshpande	404
Kinetics of enzymatic hydrolysis of Indian tuna fish oil using <i>Candida rugosa</i> lipase Kriti Bhandari, S P Chaurasia & K Singh	413
Sugar cane molasses as media component for microbial transglutaminase production Oscar M Portilla, Vicente Espinosa, Lorenzo Jarquin, Arturo Salinas, Gonzalo Velazquez & Manuel Vazquez	419
Influence of growth conditions on enhanced production of alpha amylase from <i>Penicillium</i> species in solid state fermentation Roheena Abdullah, Samia Nadeem, Mehwish Iqtedar, Afshan Kaleem, Tehreema Iftikhar & Shagufta Naz	426
FTIR mapping of peels of <i>Litchi chinensis</i> after acid treatment and its SSF for ethanol production by <i>Pachysolen tannophilus</i> MTCC 1077 Latika Bhatia & Sonia Johri	433
Alkaline thermostable cold active lipase from halotolerant <i>Pseudomonas</i> sp. VITCLP4 as detergent additive M Kavitha & C Shanthi	446
Comparative analyses of pathogenesis-related protein-10 (PR10) in plants Ibrahim Ilker Ozyigit, Recep Vatansever & Ertugrul Filiz	456
Isolation and characterization of homeodomain leucine zipper class-III transcription factor gene in <i>Eucalyptus tereticornis</i> V Dharanishanthi & Modhumita Ghosh Dasgupta	465
Computational identification of cold-specific regulatory genes using a Chinese cabbage microarray Ji-Weon Choi, Yoon-Pyo Hong, Ji-Gang Kim, Yong-Kab Kim & Chang-Kug Kim	471
<i>In silico</i> analysis and homology modelling of coat-protein of garlic common latent virus isolates from India Rakesh Kumar Meena, Sanket Thakur & Shailendra Jain	481
Molecular cloning and <i>in silico</i> analysis of cellulose gene from <i>Bacillus amyloliquefaciens</i> MBAA3 Aarti Thakkar & Meenu Saraf	487
A rapid two step bacterial DNA extraction method using LasA protease of <i>Pseudomonas aeruginosa</i> MCCB 123 Divya Jose, Jayesh P, Prem Gopinath, A Mohandas & I S Bright Singh	495
Short Communication	505
Computation and <i>in silico</i> validation of a real-time PCR array for quantitative detection of pathogens isolated from blood sample in sepsis patients Swati Gupta, Aman Dongre, Juhi Saxena & Anupam Jyoti	
Instructions to Contributors	509
