## CONTENTS

### *Special Issue on Emerging Trends in Cancer: Prevention and Therapeutics*

<b>Preface</b>	801
<b>Review Articles</b>	
Molecular mechanisms and targets of cancer chemoprevention by garlic-derived bioactive compound diallyl trisulfide Marie Lue Antony & Shivendra V Singh	805
Inhibition of mercapturic acid pathway-mediated disposal of 4-hydroxynonenal causes complete and sustained remission of human cancer xenografts in nude mice Sushil Kumar, Rutika A Kokate, Mukesh Sahu, Pankaj Chaudhary, Rajendra Sharma, Sanjay Awasthi & Yogesh C Awasthi	817
Cancer stem cell markers as potential targets for epithelial cancers Venkateshwar Madka & Chinthalapally V Rao	826
Potential molecular targeting of splice variants for cancer treatment Christopher A Blair & Xiaolin Zi	836
<b>Papers</b>	
Interleukin-1 $\beta$ -induced iNOS expression in human lung carcinoma A549 cells: Involvement of STAT and MAPK pathways Kameswaran Ravichandran, Alpna Tyagi, Gagan Deep, Chapla Agarwal & Rajesh Agarwal	840
Inhibition of angiogenic attributes by decursin in endothelial cells and <i>ex vivo</i> rat aortic ring angiogenesis model Tariq A Bhat, Jung S Moon, Sookyeon Lee, Dongsool Yim & Rana P Singh	848
Chemoprotective influence of <i>Zanthoxylum</i> spp. on hepatic carcinogen metabolizing and antioxidant enzymes and skin papillomagenesis in murine model Paulraj Rajamani, Sanjeev Banerjee & A Ramesha Rao	857
Chemomodulatory potential of <i>Glycine max</i> against murine skin and cervical papillomagenesis M Singh, E Mendez, A Ramesha Rao & R K Kale	864

(Contd)

Induction of apoptosis by eugenol in human breast cancer cells N Vidhya & S Niranjali Devaraj	871
Transforming growth factor $\beta$ 2: A predictive marker for breast cancer Heena Dave, Sunil Trivedi, Manoj Shah & Shilin Shukla	879
<b>Announcement</b> 5 <sup>th</sup> FIMSA international congress of immunology	804
<b>Editor's Note</b>	888

### **Announcement**

#### **5<sup>th</sup> FIMSA International Congress of Immunology 14-17 March 2012, New Delhi, India**

Organized under the auspices of Federation of Immunological Societies of Asia-Oceania (FIMSA) and the Indian Immunology Society, the 5<sup>th</sup> FIMSA International Congress of Immunology will be held in New Delhi. The theme of the Congress is 'Translational immunology in health and disease'. The symposia and/or workshops of the Conference will cover following themes: Immune regulatory networks, Cytokine and inflammation, Adjuvants and vaccines, Tolerance and transplantation, Cross talks between innate and adaptive immunity, Autoimmunity: emerging concepts, Cell therapy, Immunodeficiencies, T and B cell memory, Understanding host-pathogen interaction, Regulatory T cell and clinical applications in human disease, Stem cell and regenerative medicine, Tumor immunology, Interplay of immune system, Nano technology, Immune mechanisms underlying autoimmune and infectious diseases, and Microbicides and mucosal immune system. For details kindly contact the Congress President, Prof. Narinder Mehra, Department of Transplant Immunology and Immunogenetics, All India Institute of Medical Sciences (AIIMS), Ansari Nagar, New Delhi 110 029. India. Telephone: +91 11 26594638; Fax: +91 11 2658866; E-mail: [fimsa@fimsa2012.com](mailto:fimsa@fimsa2012.com). Congress website: [www.fimsa2012.com](http://www.fimsa2012.com)
